

Heritage Heritage light

This trail takes you on a journey to discover the history behind eighteen of the oldest and most significant buildings and sites in Roebourne.

The trail also provides an insight to how life was for the early settlers and Aboriginal people all those years ago.

Gazetted in 1866, Roebourne was the first town in the North West of Western Australia. The Ngarluma people are the traditional owners of this land and call this place Yirramagardu.

The Roebourne Heritage Trail is a self-guided 5km walk or drive (with an extended option of 8km to visit three outer-town sites) capturing the most significant historical sites in Roebourne.

The route is signposted with large interpretive signage detailing the importance and history of each building or site.

## **Aboriginal Site Protection**

Multiple sites along this trail are very significant to Aboriginal people; these heritage sites are of great interest to non-Aboriginal people and are protected by law. We trust that giving people a better understanding will engender greater respect for Aboriginal culture.

## We would like to acknowledge the cooperation and support of the following people and organisations:
